

Pimpama

New Gold Coast station

October 2019

The Cross River Rail Delivery Authority is planning three new rail stations on the Gold Coast Line to help connect South East Queensland's growing population.

Concept designs have now been prepared and we are seeking your feedback. Stations are being planned in Merrimac, Pimpama and Helensvale North.

The new Pimpama station will provide the local community with greater access to convenient rail services; expanding options for easy travel within the Gold Coast, as well as to Brisbane.

Pimpama has been identified as one of the fastest growing suburbs in Queensland. The new station will reduce existing pressure on Ormeau and Coomera train stations and support future growth in the area.

Pimpama station is scheduled to be open in time for the first Cross River Rail services.

We'd like your feedback and local knowledge to help further develop the concept designs.

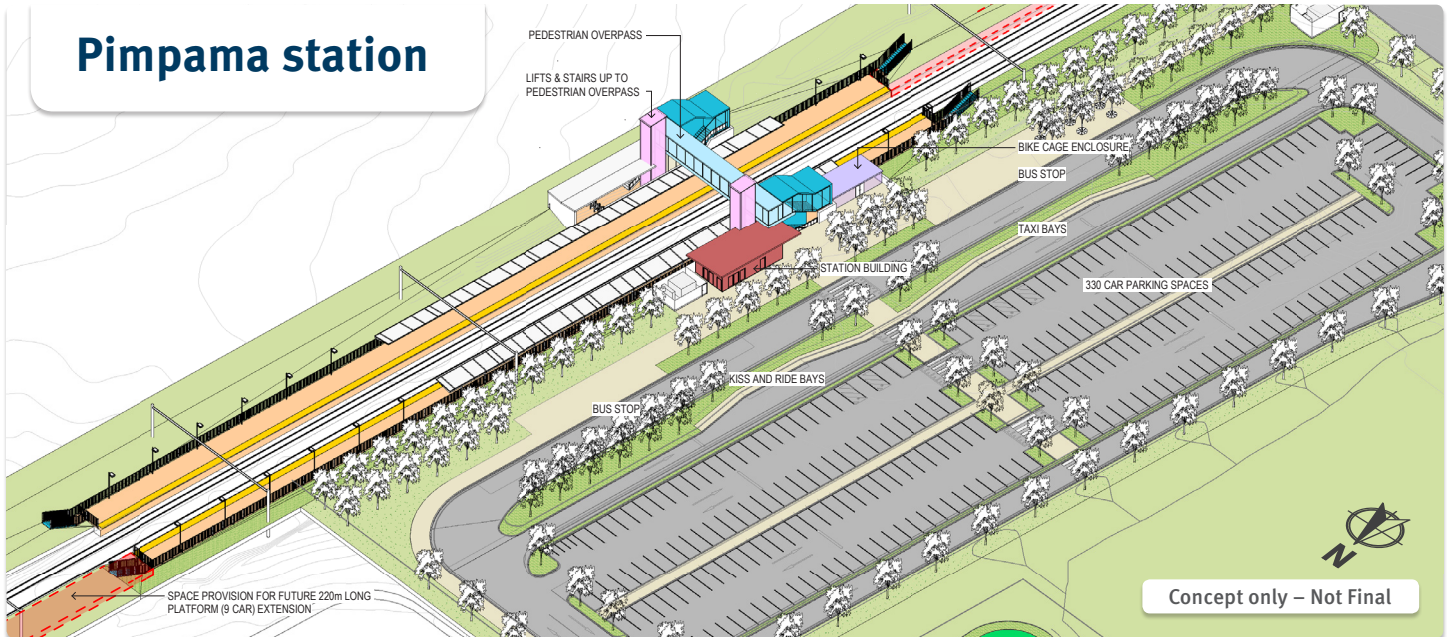

The proposed Pimpama station will be located off the Old Pacific Highway. See the map below for further information.

Station features:

-  On site parking and passenger drop-off facilities
-  Planned connections to pedestrian and cycle paths
-  Integrated with public transport network
-  Intersection improvements
